

TP-3 pH TESTER

- Measures pH of liquids with low deposit content and temperatures up to 55 °C and the temperature of liquids in range 0 55 °C .
- Results of the pH and temperature measurements are displayed simultaneously.
- Pocket-size and splash-proof housing enables work during rain.
- Fast stabilisation of the result.
- Automatic temperature compensation.
- 1-point calibration (in 6.86 or 7.00 pH buffer).
- The set includes a bag with powder from which 250 ml of the 6.86 pH buffer can be made.
- Long-lasting work on one battery set.
- Unreplaceable electrodes.
- Price close to standard pH electrode cost.
